

## **Sale Information**

### **SIGHT-UNSEEN PURCHASES**

If you are unable to attend our field day and sale, we can make arrangements to handle your bids confidentially. We take this responsibility seriously and guarantee that you will not spend any more for a bull by placing a bid with us than you would if you were here in person the day of the sale. If you would like assistance in finding a bull to fit your needs, please give us a call. Through visiting about your environment, your program, and the direction which you desire to go with your cow herd, we can select bulls that will meet your specifications. Please give us a call early if you would like us to assist you in selecting bulls.

### **AUCTION FORMAT**

Ranch Auction: Although our Sale has an auction format, it has no fast-talking auctioneer. Every bull will have a base price of \$2,200. When it is time to sell a bull, we will ask those who are interested, at the base price, to raise their buyer number. If there is only one number in the air, the bull will be sold to that number at the base price. If there is more than one number in the air, we will increase the price in \$200 increments until only one number remains. This provides a very simple way to purchase bulls. In the event of a tie bid, when the last two (or more) buyer numbers drop out at the same time, we give the bid to the bidder with the lowest buyer number. The other bidder(s) will then be asked to increase the bid \$100 to stay in the auction. If the bid is increased, then the bidder with the lowest buyer number can raise the bid another \$100, and so on. Basically, we will have a traditional auction between the two (or more) bidders who dropped out at the same time.

### **SELF HAUL CATTLE TRANSPORTATION CREDIT**

A \$0.12 per mile credit will be given on each bull purchased in the sale based on the distance you live from the ranch in Falfurrias, TX. For example, if you live in Lubbock TX, 548 miles from the ranch and you purchase two bulls in the sale, you would be credited \$132.00 (66.00 for each bull) off the purchase price of the bulls when you settle up after the sale. This credit applies only to bulls that sell on sale day. It does not apply to females or calves that sell private treaty during the field day and sale. If you are willing to haul cattle in addition to your own, please let us know. Also, if you need help finding transportation for cattle back to your area, feel free to contact us.

### **BREEDING SOUNDNESS / PREGNANCY EVALUATIONS**

All bulls have recently passed a Breeding Soundness Exam and all of our bred females have been pregnancy checked. Please have your vet test your bulls and cows/heifers soon after arriving at their new home to corroborate. Invariably, every year we have bulls which don't pass their BSE's after having produced calves in prior years. Just as we have had bulls that produced calves after not passing a BSE.

**\*\*Please call Alex about a freight allowance for volume purchases.\*\***
